# Evolutionarily Significant Units Of Chum Salmon

(Does not include "Not Warranted" ESUs)

## LEGEND

### Evolutionarily Significant Unit (ESU) and Status

Columbia River (T)

Hood Canal Summer-Run (T)

(T) Threatened

(Does not include "Not Warranted" ESUs)

### National Forest System

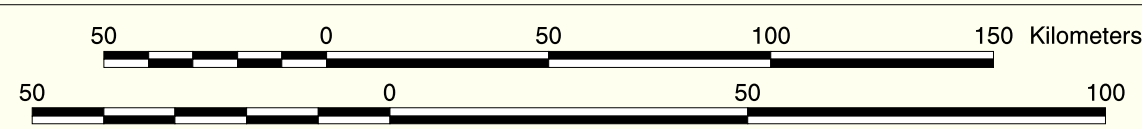

Inventoried Roadless Area where road construction or reconstruction is allowed

Inventoried Roadless Area where road construction or reconstruction is not allowed

Inventoried Roadless Area where road construction or reconstruction is not allowed, and the forest plan recommends as wilderness

Designated Areas outside of Inventoried Roadless Areas

National Forest System land outside of Inventoried Roadless Areas - not all private land is shown on the map

### Credits:

Final Inventoried Roadless Area Dataset supplied by individual National Forests and Grasslands (August 2000). For further information, contact individual administrative unit offices or visit the Forest Service web site at: <http://www.fs.fed.us/>

Evolutionarily Significant Unit data provided by NOAA - National Marine Fisheries Service. For further information contact Steve Stone, NMFS Portland Office: [Steve.Stone@noaa.gov](mailto:Steve.Stone@noaa.gov) - (503) 231-2317 <http://www.nwr.noaa.gov/salmon/salmonsa/mapsowitch.htm>

The USDA Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. Using GIS products for purposes other than those for which they were intended may yield inaccurate or misleading results. The USDA Forest Service reserves the right to correct, update, modify, or replace GIS products without notification.

UTM Zone 11 Projection  
August 11, 2000

NOTE: These maps depict major river basins within the current known range of the species/ESU. They are for general reference only; the species does not necessarily inhabit all drainages or river reaches depicted.
